

*****Marketplace Builder Hackathon***** (2025)

👋Day-1- (Hackathon completed)! 🌟

Key Achievements (Day 1):

Website Purpose & Business Goals:

- ✓ Clearly defined the objectives and goals to guide the platform's development and vision.

Problem-Solving Focus:

- ✓ Identified the challenges users face and structured solutions through the website.

Target Audience Analysis:

- ✓ Gained clarity on the audience demographics and preferences to tailor features and services.

Services Overview:

- ✓ Outlined the core offerings and functionalities the website will deliver.

Unique Selling Point:

- ✓ Explored strategies to differentiate the platform from competitors and attract the right audience.

Data Schema Design:

- ✓ Defined a solid backend structure to ensure scalability, security, and efficiency.

"This foundational work has set the stage for the website's development, and I'm excited to move forward with the next phases of the hackathon! 🚀
